ACADEMY

COVID 19 Edition

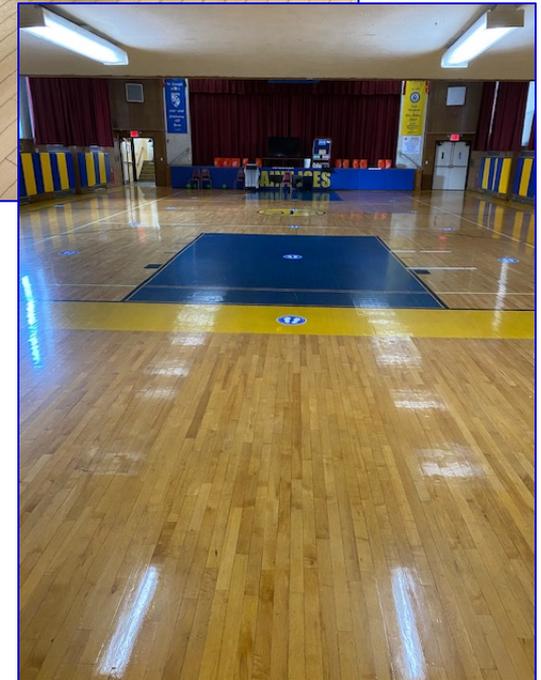

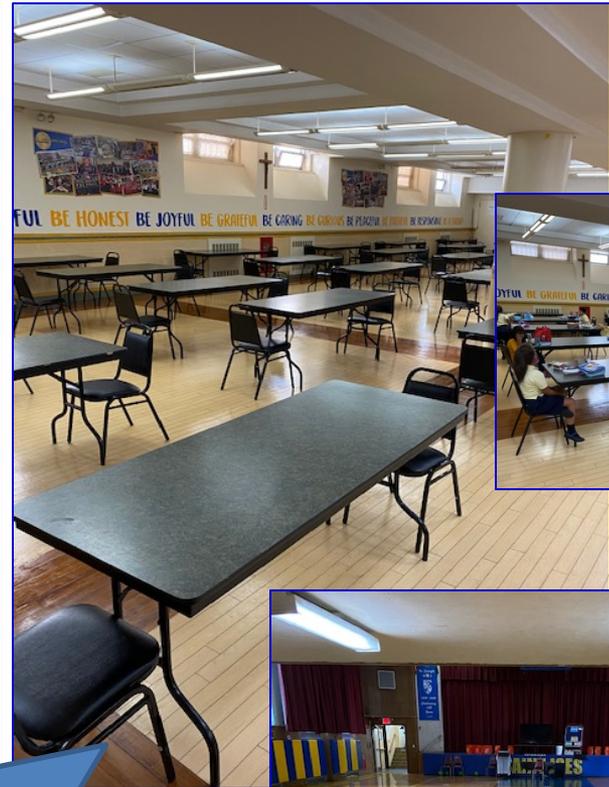

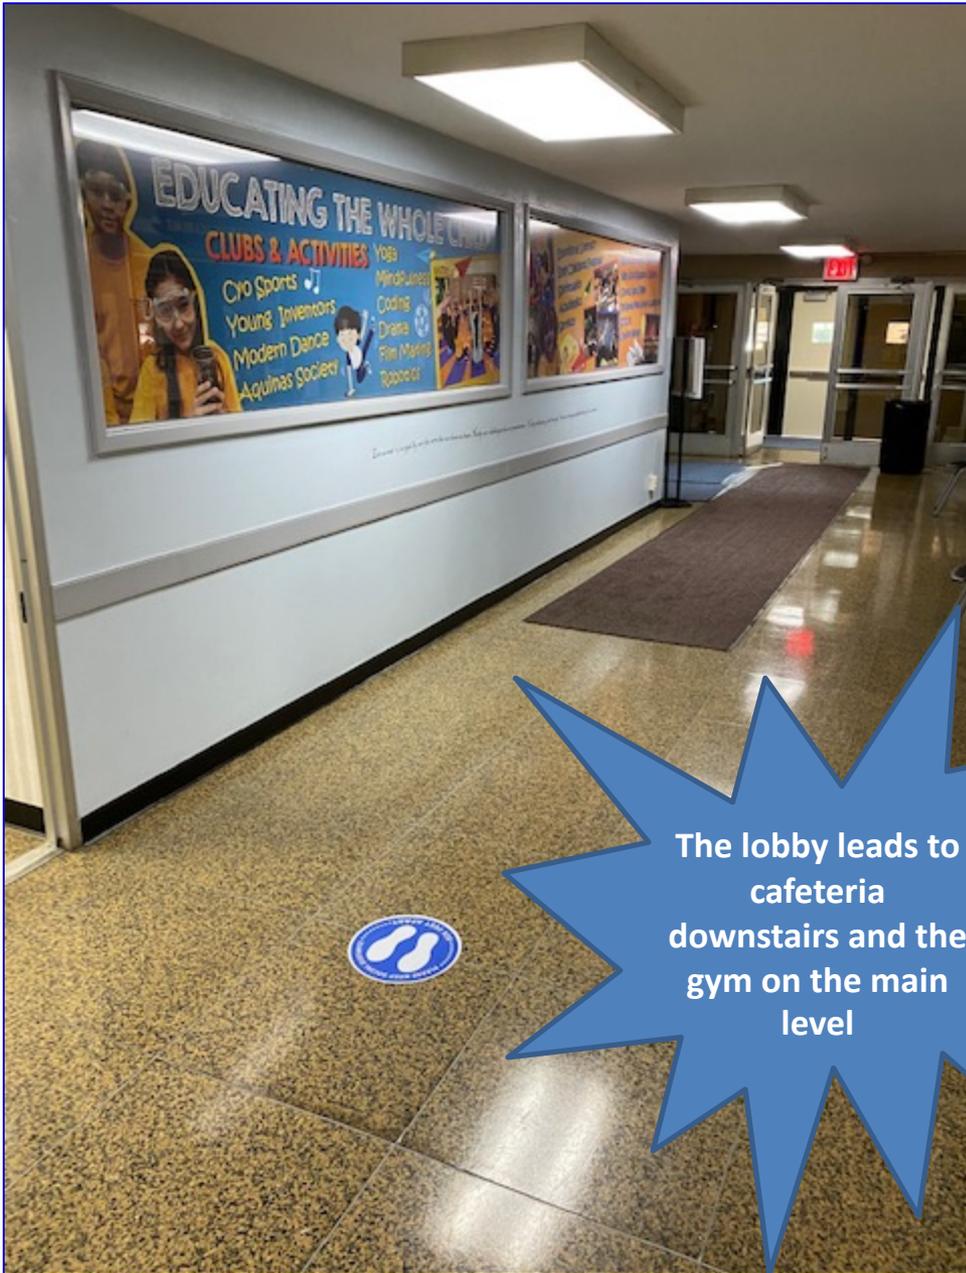

Our Main Entrance is on 44th Street between 28th and 30th Avenues in Astoria/LIC. The first school building was erected in 1917 and an extension was added in 1954.

During this Covid crisis, we have had to reconfigure our classrooms and some of our common spaces to comply with department of health protocols. We have had to cut back on some of our programs, but are eagerly awaiting a return to normal so we can continue to offer the well-rounded program that has characterized us for so many years.

The lobby leads to cafeteria downstairs and the gym on the main level

Up the stairs from the lobby , we pause at the mezzanine where the medical room and library are located. The library is home to a collection in excess of 10K books as well as 24 PCs for student use. The library is being used as an isolation room during COVID.

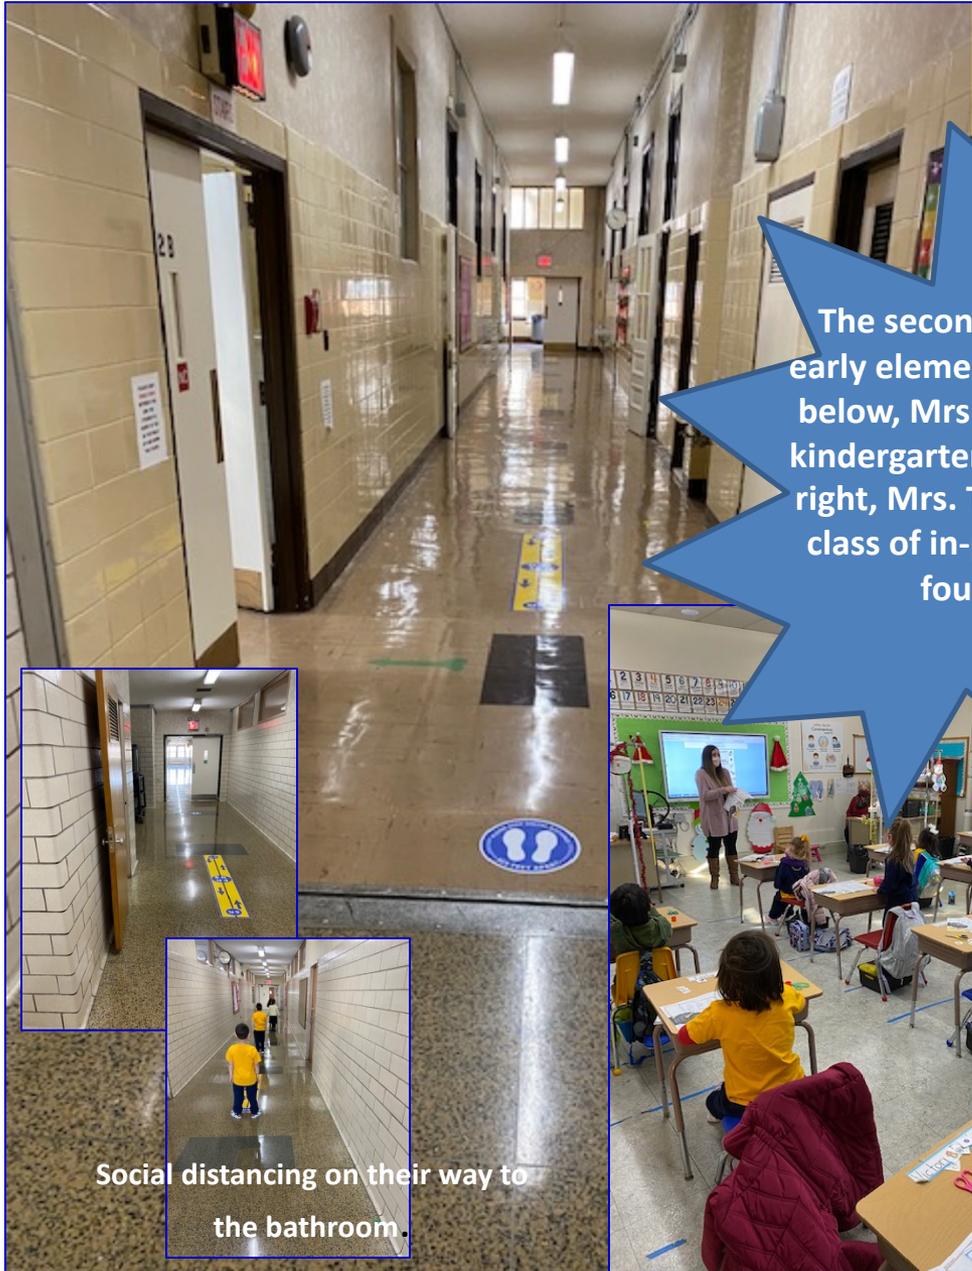

The first floor houses the PK3 and PK4 children.

Let's take a peek into the nursery classroom as these youngsters peek out at us.

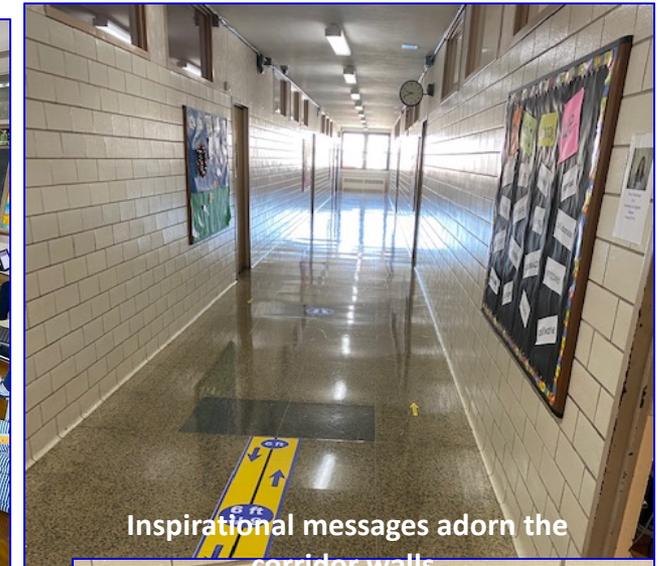

PK4 students 'drawings of masked people and PK4 students as they work together in learning clusters.

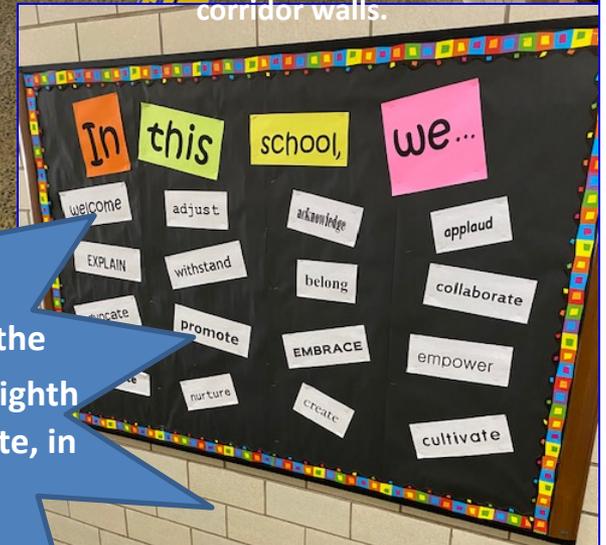

The second floor houses the early elementary classes. At left below, Mrs. Coluccio starts the kindergarteners on a project. At right, Mrs. Tankleff teaches her class of in-person and remote fourth graders.

Social distancing on their way to the bathroom.

Inspirational messages adorn the corridor walls.

The Gross Motor Room has become our Faculty Room during Covid.

The third floor is home to the upper grades. Pictured are eighth graders, in-person and remote, in math class.

YOGA

STEM LAB

ROBOTICS

ART CLUB

CHORUS

FILMMAKING

Looking forward to the end of COVID and a return to our programs and special events.

A PRE-COVID WELCOME
